

# WSoftline MRZ Scanner Help:

## Generate MRZ:

- 1- Open MRZ Scanner from the app menu.
- 2- Allow Camera Permission (first time only).
- 3- Place the document flat and aim the camera at the 2 bottom MRZ lines.
- 4- Tap Scan.
- 5- Hold steady for a few seconds while the app reads multiple frames to stabilize the MRZ.
- 6- When detected, the app will show:
- 7- MRZ (raw) (2 lines)
- 8- Parsed Result (Issuer, Names, Sex, Date of Birth, Expiry Date, Nationality, Document Number)
- 9- Use Copy or Share to export the result.

  

- 1- **Scan:** Starts the scanning process (multi-frame burst scan for accuracy).
- 2- **Copy:** Copies the parsed result to the clipboard.
- 3- **Share:** Shares the parsed result via WhatsApp, Email, Notes, etc.
