

Price Checker Desktop

Price Checker is a professional, web-based barcode scanning and price lookup system designed for retail counters, warehouses, and inventory points where speed and clarity matter.

Built to work seamlessly with USB barcode scanners, the system allows staff to instantly retrieve product information using a clean, distraction-free interface.

- USB Barcode Scanner Support
- Instant Price & Stock Lookup
- CSV Product Import
- Scanner-First Interface
- Manual Barcode Entry
- Low Stock & Status Indicators
- Clear Results & Reset Options
- Controlled Access
- Controlled Access
