

PriceChecker

RFID Product Lookup (Offline)

PRICE CHECKER

SAVED DATA

SETTINGS

EXIT APP

Scanify Price Checker lets staff scan an RFID tag and instantly display the product details stored locally on the device – fast, simple, and works offline.

- Shows Tag + Product Name + Price + Quantity
- **Import products from CSV** (comma / tab / semicolon supported)
- **One-trigger scan** → reads first tag and stops automatically

- View all imported products in one screen
- Delete individual or unused items
- Share product details or full list instantly

- RFID setting machine
- Hide Prefixes from tags
- Set Power & Frequency range
